

AKS

Intelligent bib Juice Dispenser

Intelligence | Standardization | Easy Operation
Quick Serving | IoT Ready | Secret Recipe

Smart, Easy Operation

Operate via touch screen or QR scanning — no order errors, consistent flavor every time.

Intelligent Portion Control

Precise dispensing minimizes material losses and ensures perfect serving consistency.

Wireless Recipe Management

Create unlimited menus with your own secret recipes, accessible wirelessly anytime.

Real-Time Monitoring & Alerts

Automatic material shortage alarms for better replenishment and inventory control.

Chilled Storage

Maintains product freshness and quality throughout its shelf life.

Serving Non-Carbonated and Carbonated Drinks

Unlimited product creativity

Perfect for bib packaging Zero-Touch from factory to cups

Factory-quality. Clean.
No taste variation

Food-Grade Safety & Hygiene

- Complete food-safety design from cabinet to nozzle.
- Built-in cleaning program.

Flexible, Mobile Design

Ideal for events, cafes, food trucks, and catering setups — easy to move and install anywhere.

IoT-Ready Integration

Connects seamlessly with POS systems and provides real-time sales and data analytics.
